Tirupati, AP

OBJECTIVE

A motivated B.Tech graduate in Artificial Intelligence and Data Science seeking an entry-level role to utilize my skills in Python, web technologies, and problem-solving to develop innovative solutions and contribute to organizational success.

EDUCATION

Sree Rama Engineering College

Bachelor of Engineering in Artificial Intelligence and Data science

Tirupati, AP

Oct 2022-April 2026

PROJECT EXPERIENCE:

Speech Emotion Recognition by using ML & DL | Python, NumPy, Pandas, Librosa, Scikit-learn, TensorFlow/keras, Matplotlib, Jupyter Notebook

- Developed a Speech Emotion Recognition system using Python and Machine Learning models (CNN/LSTM) to classify human emotions from audio signals.
- Extracted audio features using MFCC (Mel-Frequency Cepstral Coefficients) and trained the model on standard datasets like RAVDESS and TESS for accurate emotion detection.
- Achieved improved performance by preprocessing audio data, tuning model parameters, and evaluating results using accuracy metrics. A simple calculator performs basic mathematical operations such as addition, subtraction, multiplication, and division.

SKILLS

Languages: Python, Java, SQL(PostgreSQL), JavaScript

Frameworks: Fast API, Django, Flask, React

Cloud & Tools: AWS, Git, GitHub

Databases: PostgreSQL

INTERSHIPS AND CERTIFICATIONS:

Data Quality Analyst Intern | [Roman Technologies]

- Validated and cleaned large-scale datasets using Excel, ensuring 99% data accuracy for reporting.
- Identified inconsistencies in data entry and implemented standardized formats for better data quality.

CERTIFICATIONS:

Rooman Technologies – Certificate of Achievement of AI-DATA QUALITY ANALYST[INTERN]
