SUMMARY

Enthusiastic B.Tech graduate specialized in Artificial Intelligence and Data Science with hands-on experience in Machine Learning, Data Preprocessing, and Web Development. Skilled in building ML models, preprocessing real-world datasets, and developing scalable applications using Python and modern frameworks. Seeking an entry-level role in software development or data-driven domains to apply analytical and problem-solving skills.

EDUCATION

Sree Rama Engineering College (JNTUA)
Bachelor of Engineering in Artificial Intelligence & Data Science

Tirupati, AP
Oct 2022 – Apr 2026

ACADEMIC PROJECTS

Speech Emotion Recognition using ML & DL | Python, NumPy, Pandas, Librosa, Scikit-learn, TensorFlow/Keras, Matplotlib, Jupyter Notebook
Nov 2025 – Apr 2026

- Built a Speech Emotion Recognition system using CNN and LSTM models to classify human emotions from audio signals.
- Extracted features using MFCC and trained models on RAVDESS and TESS datasets, achieving ~85% classification accuracy.
- Performed data preprocessing, feature engineering, and model tuning to enhance performance.
- Evaluated model using accuracy metrics and visualized results using Matplotlib.

SKILLS

Languages: Python, Java, SQL (PostgreSQL), JavaScript
Frameworks: FastAPI, Django, Flask, React
Technologies: Machine Learning, Deep Learning, Data Preprocessing, Feature Engineering
Tools: AWS, Git, GitHub, Jupyter Notebook
Databases: PostgreSQL

PROFESSIONAL EXPERIENCE

Data Quality Analyst (Intern) | Roman Technologies 19 May 2025 – 14 Jul 2025

- Validated and cleaned large-scale datasets using Excel, ensuring 99% data accuracy for reporting.
- Identified data inconsistencies and implemented standardized formats to improve data quality.
- Processed structured and unstructured datasets to ensure consistency and completeness.
- Improved AI model performance by preparing high-quality, well-structured training data.

CERTIFICATIONS

Rooman Technologies

Issued Date: 19 Jul 2025

- Certificate of Achievement – AI Data Quality Analyst (Intern)
